### They Started To Argue

When the department of commerce a few days ago announced it would ask for money to take an unemployment census. The thing almost was as good as started. Or so it seemed

Then some one-Gen Johnson apparently -got the bright idea of not laiting a census but of letting the memployed register volunisally. That started an argument and it looks now as if an unemployment consus as remote as ever

The plain truth is that even if every body were in agreement the census takers all wouldn't know how to count unemployment. Is a wealthy man a son who deesn't have a job and lent looking for one unemployed Is he unemployed if he is looking for a job? Clerity unemploy ment is a relative condition. Public con tern is contored on unemployed persons who need money and have no other means of support

Locoign Investors it sectus are too fond of American securities to phase important U S governmental authorities Though it s flattering to know that British canitalists for instance are anxious to put their money into this country - stocks there's a disquieting side too

That's the probability that fickle foreign capital would be withdrawn at the first signs of a mark taplianse therein uncking the collapse more serious. A pendent policy cally for a stitch in time to suce the along stitches which wontd be needed ofter such on accident

However it's doubtful if there is any ining which can be done L distriction to shut out foreign cupilot sounds all tight as a proposal but as a pantice no one would care to risk it Short of a rupture of international relationables the United support on work statedous barring foreign investors

there is of course one was to play safe The ice on capital from abroad is flowing award the United States Is the apportunity for profitable speculation in Ameri can significa that can be based to pah cies which have an inflationary effect. ## A Guardian of Humanity

. IT IS somethings forgotten that the funeral director playe a dual role in our mo ern a siety. His flist bity a to comfort these who mourn and to saive these who have passed on. But equally as important is his function. as a guardian of public health

Proper earliery methods to prevent the sprent of contagious diseases are a duty with the conscientious funeral director. His professional burlons include the protection of his community sgainst the dangers of plants and duadly discases

Government officials have paid glowing tribute to the way funeral directors, by scientific methods guardthe public health. We consider this particular function as one of the most vital we have and every member of our staff is trained in the most modern sunitary methods
